

Where the Biden-2020 → 2024 skips are: cohort × income
Cell color = absolute skip event count (n=928 total)

*GenX-Q0 (141 events @ 13.2%) + Boomer-Q0 (144 @ 6.1%) = 30.7% of all Biden-2020 skip events.
The demobilized voter isn't who the takes assume. It's a 50-65-year-old earning under ~\$50-60k, NOT a disaffected GenZ progressive.*
